Integrated Environmental and Social Policy

- **BSTDB seeks to apply best-in-class Environmental and Social practices** in accordance with the European Union Standards, the World Bank/IFC Performance Standards, EBRD's Performance Requirements, International Labor Organizations Core Labor Standards and International Environmental Conventions
- **All projects financed by BSTDB are subject to environmental and social assessment** as part of due diligence process, as well as monitored continuously for compliance with the agreed requirements and mitigation measures, if relevant
- BSTDB's energy, transportation and utility sector lending is increasingly focused on developing its portfolio of **environmental improvements, energy efficiency and renewable projects**

Climate Change

The Bank's first Climate Change Strategy was approved by the Board of Directors in March 2021 with the main goal of better aligning its financing with the Member States climate priorities. Specifically, the Bank commits to: gradually reduce the net emissions in the portfolio; increase the share of its funding to climate positive operations and operations with climate co-benefits to at least 30 percent; and build capacity to better serve Member States in mitigation and adaptation efforts.

In successfully meeting these objectives BSTDB is currently developing a comprehensive implementation plan, which will systematically address climate issues at both strategic and operational level. Investments in renewable energy, energy and resource efficiency, sustainable infrastructure, green buildings and electric transport systems will be among financing priorities. At the same time the Bank will gradually phase out support for carbon-intensive sectors.

Portfolio Reduction & Accumulated Equity

Active Portfolio De-Risking

Overview:

- Decrease of portfolio by 80% since 2022 from EUR 475.2 million to EUR 96.6 million.
- Payments received accounted for 90.9% of due amounts.

Key Factors Influencing the Portfolio:

1. Major prepayments by Europlan (RUB 2.5 billion) and Hayat Consumer Goods (EUR 68 million).
2. Sovcombank USD 47 million exposure swapped with new loans in other countries, reducing risk.

Conclusion:

- Strategic and responsive management reduced exposure by 80%.
- High transparent and compliant recovery rate of payments of pre 2022 bona fide exposures.
- Effective handling of prepayments, loan sales, and technical payment issues.

Outstanding Portfolio by Currency

Developments in the Ukrainian Portfolio

Overview:

- Resilient portfolio quality with payments received accounting to 94.4% of due amounts since 2022.

Key Factors Influencing the Portfolio:

Overdue Borrowers and Payment Deferrals:

- Syvash, Prometey and Agropetsservice: Syvash is unable to pay due to its wind park being in an occupied area, whereas for the other two borrowers, recovery options have been approved and implemented during 2H-2025.
- Epicentr Group granted payment deferrals, prepaid around 35% of their balance and approved new repayment schedule with payments being received on time.

Repayments and Prepayments:

- The rest of the Ukrainian borrowers are repaying on time, with some even prepaying their loans.

Conclusion:

- High recovery rate of payments.
- Effective handling of overdue amounts, payment deferrals, and restructuring negotiations.
- New transactions entered since 2022 (GNG EUR 37m, Kernel USD 25m, etc.) to support Ukraine recovery efforts.
